

2/23/09

Dear 9th Street Business/Property Owner

The Corvallis Area Metropolitan Planning Organization (CAMPO) has launched the improvement of 9th Street, between Polk Avenue and Elks Drive. The purpose of this project is to improve the operation of 9<sup>th</sup> Street for vehicles, pedestrians, bicyclists, and transit services. Strategies for the improvement of 9th Street may include access management, physical modifications and transportation operation improvements.

Over the past six months, CAMPO has developed an inventory of the transportation conditions of 9th Street. The next step in this process is to review this inventory with the public and ask for their input into the issues and improvements that should be considered by this project.

As a business/property owner along 9th Street, you are invited to attend a public meeting and to provide your input to the development of the 9th Street Improvement Plan:

When: 4:00 – 7:30 PM on Wednesday, March 4, 2009

Where: Cheldelin Middle School, 987 NE. Conifer Blvd.

For more information on this project or online comments please visit [www.corvallisarempo.org](http://www.corvallisarempo.org)

Ali Bonakdar, Director  
Corvallis Area Metropolitan Planning Organization
